It's not the prettiest of maps, but it's the best I can do without the raw data from City of Frisco. I'll give them a call tomorrow (just to give them some time to reply to my email). I didn't add the full disclaimer to the bottom of the map, but provided a short excerpt.

This is a good start -- maybe overlay it with the facility map?

Hi Susan,

Here is a map from the City of Frisco's online mapper. I have sent them an email to see if I could get the data in order to create more customizable maps, and I will call them if I do not hear from them today.

Let me know if this works for now.

Thanks,

Diana

Susan,

I looked online for it, but their page is currently down for maintenance. Would you like me to contact the city's GIS department for their data?

Thanks,

Diana

Subject: Exide map

Diana - I can't remember if we talked about this but Wren asked for a map of Exide with an overlay of the city of Frisco's plans for redevelopment of the buffer area. Would you please see what you can find on that. Thanks.
